

EACBB Installation Instructions

Mounting Hardware (not included):

(4) #8 x 2 1/2" Hollow Wall Anchor or (4) #8 x 2 1/2" Screw & Anchor
Available at your local hardware store

Installation Instructions:

1. Open cabinet door(s). Using a 3/32" diameter drill bit, drill through panel at the four mounting hole locations.
2. Position cabinet at desired height (with door(s) open). Mark mounting hole locations on wall (Figure 1). We recommend the top of the cabinet be 78" from the floor for optimal visibility. Use a level to ensure the cabinet is level.

3.
 - a. *To mount on a wood wall:* Drill 3/32" holes into wall where marked. Hold cabinet in place with door(s) open, and secure to wall with (4) wood screws.
 - b. *To mount on a plaster wall:* Drill 1/4" holes into wall where marked. Insert anchors, and secure cabinet to wall with (4) screws.
