

## **Access3 & Access Plus Mini PC Sticks**

### **Limited One-Year Warranty**

For Azulle to honor this limited warranty, you must present a valid proof of purchase. This warranty is void if the company deems, in its discretion, that the product may have been damaged through modification, improper use, end user negligence, water damage, or barcode tampering. Damages or lost data due to incorrect or invalid operating system installations is not covered under this warranty. This warranty is limited to the repair/replacement of the product(s) and is subject to the conditions set forth herein. Azulle is not liable for consequential, indirect, incidental, special or punitive damages and company's total liability hereunder shall not exceed an amount greater than the retail purchase price of the product. Subject to the applicable provisions set forth on this page, with regards to this limited warranty, you are responsible for all costs in connection with the shipping and handling of the products to Azulle. Azulle holds no risk of loss of the product in connection with the transportation and shipment of the product in any way relating to this limited warranty.

### **Limited Manufacturer's Warranty**

Azulle certifies you as the original retail purchaser of the product. If the product has any defects, under normal conditions, such defects will be repaired or replaced with a new or refurbished product under Azulle's discretion, without charge, if submitted to Azulle within 365 days from the date of purchase. This warranty only covers manufacturer defects and the product must be returned to Azulle in its original condition, including all accessories. Proof of purchase is required.

### **Changing the OS**

Azulle certifies you as the original retail purchaser of the product. If the product was modified with another operating system, Azulle is not responsible for damages or lost data due to incorrect or invalid installations. You may purchase another operating system, but our technical support and warranty are limited to the original operating system that came with the product. Attempting to load another OS may render the system inoperable, void the warranty, and erase the embedded product key included with the device. All devices that are serviced but missing the recovery partition due to disk modification, such as partition removal or disk wipe, will be subject to re-imaging fee (\$15 USD). Devices with removed or modified product keys will be subject to the same fee.
