

AC10X7 Banner Stand Assembly

Instruction

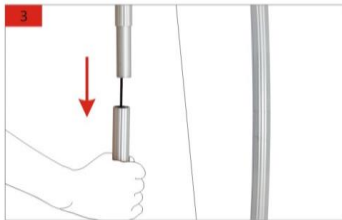

1 Rotate the bottom screws with the base foot to connect them.

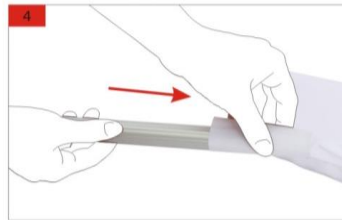

2 Turn on the handle of locking unit.

Stretch the vertical pole to the requested height (or suitable banner height).

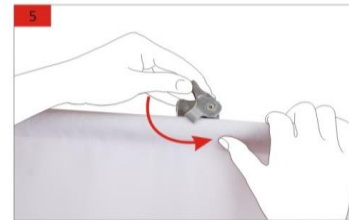

Close up the handle of locking unit.

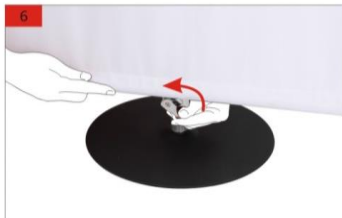

3 Connect the cross bar.

4 Insert the cross bar to the banner sewing groove.

5 Turn on the handle of top locking unit, put the top cross bar to the locking unit and fix the banner.

6 Turn on the handle of top locking unit, put the bottom cross bar to the locking unit and fix the banner.

7 Turn on the handle of locking unit, glide the fixed unit of vertical pole to adjust banner tension, then close up the handle of locking unit. (Pls stretch the vertical pole in corrected height before you adjust the tension).

8 Finish.
