

## Aurora Light Box Assembly

### Banner installation

#### 1: Tuck sides of banner in

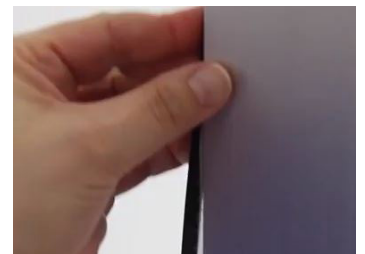

**A:** Line up the front side of the edge of the banner and begin tucking in the sides of it into the channels of the frame

**B:** Use your hand to guide the silicone edges along the seam into the channel of the frame for clean and easy installation of the banner

A

B

#### 2: Finish tucking at bottom left side

**A:** Tuck all of the seams of the banner into place and finish at the bottom left side where the attached nylon loop is
