

The rectangles below represent (2) 6" x 3" Door Signs. Insert shapes, images, and text to create your unique design. Print a test first on regular paper and hold up to the supplied film. By using this method you can fine tune your designs accordingly before final printing onto the film. This supplied film is for use in Color or B & W photocopiers and laser printers ONLY. Output at 100%, do not scale down or select "fit to page". We recommend printing one sheet at a time as the film sheets may stick together.
