

TLHBLK SERIES ASSEMBLY INSTRUCTIONS

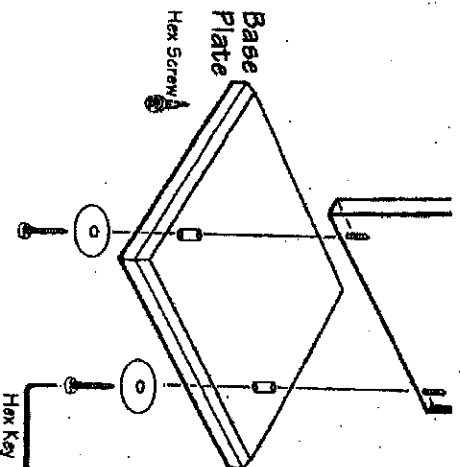

Thank you, for purchasing your TLH series display.
To insure the long life of this product and customer satisfaction, please inspect the product after opening for damage or missing parts.

Materials List:

- 1) The box should contain the display Base, Upright and a Hardware kit.
- 2) The hardware kit should have (2) screws to attach an accessory pocket to the face of the unit, (2) washers, (2) hex keys and (2) black screw covers.

Assemble the base and upright:

- 1) Remove the (2) 1/4-20 machine bolts from the bottom of the upright.
- 2) Put the two 1/4-20 bolts through the flat washers, through the base and into the upright and tighten with the hex key provided.

- 3) Attach the pocket using the two screws and hex key provided, or cover the screw holes with the two black screw covers provided
