Assembly Instructions
Wall Mounted Phone Charging

1. Open front panel by unlocking the two locks at the top.

2. Run power cable through the opening in the back of the unit and plug it into the power hub.

3. Feed USB cables through each “A” opening.
4. Plug USB cables into power hub.

5. Close front panel and lock to secure.

6. Attach device pockets by sliding hook tabs into slots. Push in and down on center of pocket. Pockets will snap into place. Repeat for all pockets.
